25X1 We asked [redacted] to send this note to us when we were up there. We have no objections to these people looking the work over, but we thought we would like to know who [redacted] contemplates to do business with along the lines of our interests. I don't know whether it is sporting, but can we give RADC and NRTSC fair warning about the problems we have had? I know [redacted] 25X1 is O.K. and maybe some of the others are too, for any event we have contacts at both RADC & NRTSC
